

Kentish Administrations, 1559-1649

Abstracted by Leland L. Duncan

Alphabetized by John Blythe Dobson

Warning: this file produces 120 printed pages

These administrations were originally abstracted by Leland L. Duncan in two series: 1559-1603, in *Archaeologia Cantiana* 18 (1889): 15-40, and 1604-1649, in *Archaeologia Cantiana* 20 (1893): 1-48. In a few places where further editorial comment seemed required — in some cases due to the rearrangement caused by the alphabetization — it has been added in square brackets and signed with my own initials (J.B.D.) The last two columns (volume and page) refer to Duncan's published articles, in order to facilitate comparison therewith. Duncan's original preface to part I reads as follows:

The following records of the Grant of Administration of the effects, etc., of persons dying intestate, have been extracted from the Administration Act Books of the Prerogative Court of Canterbury, now at Somerset House. They comprise all the entries relating to the County of Kent to be found therein from 1559 (the first of the existing Act Books) to 1603, and are here printed in tabular form to facilitate reference. With the same object the division of the various years adopted in the official calendars of the grants has been followed, and the *folio* of the Act Book has been placed against each entry.

In making the extracts *consanguineus* has been rendered "kinsman," and *prox. consanguineus* as "next of kin."

Unless otherwise stated, the surname of the person to whom the administration was granted may always be taken to be the same as that of the deceased.

It should be noted that the division of the years here followed is that of the New, or present, Style, but the entries themselves are dated in the Old Style.

Duncan's original preface to part II reads as follows:

The Kentish Administration Grants already extracted from the Act Books of the Prerogative Court of Canterbury and printed in *Archaeologia Cantiana* extend from 1559 (the first of the existing books) to 1603. To these are now added all the Grants relating to the County for the reigns of James I. and Charles I. — 1604 to 1649.

Unless otherwise stated, the surname of the person to whom the administration was granted may always be taken to be the same as that of the deceased.

In making the extracts the following translations have been adopted:

consanguineus, kinsman.
prox. consang., next of kin.
nepos ex fratre, brother's son (or daughter).
nepos ex sorore, sister's son (or daughter).
nepos ex filio, grandson (or daughter) by the son.
nepos ex filia, grandson (or daughter) by the daughter.

nepos, where it occurs alone, has not been translated, as the relationship expressed thereby may either be nephew or grandson; *b.*, denotes that the deceased was a bachelor; *w.*, a widow; * indicates that deceased died abroad.

The arrangement of the years here followed is that of the New, or present, Style, but the Acts themselves are dated in the Old Style.
